

Parsley

Cavalier King Charles Spaniel

A2 pastel on primed board

"The portrait came this morning and I am absolutely over the moon!! The detail is wonderful and it is truly Parsley, not just any Cavalier.

It is far better than I ever imagined it could be and my expectations were high to begin with from your website!

My husband can't stop looking at it and can't get over how you have captured the moment and the detail, including his curly whisker. He loves the expression in the eyes and I love the nose - it looks so moist!
